WORK

On-the-Job Training (OJT)

2025-2026

Raiza Building, Rizal Avenue, Lumbia District, Pagadian City, Zamboanga del Sur

Freelance Web Developer

2025 - Present

- Develop and design responsive web applications for clients and personal projects.
- Create user-friendly interfaces, system features, and database integrations.
- Build and deploy web-based systems focused on functionality, accessibility, and performance.
- Handle front-end and back-end development, testing, and system maintenance.

Freelance UI/UX Designer

2023 - Present

- Designed system layouts and interfaces for paying clients
- Created interactive prototypes and refined user flows
- Delivered professional-quality designs for various system types

TikTok Affiliate

2023 - Present

- Produced and edited promotional content
- Managed product engagement and optimized short-form videos

PROJECT

NCIP IX Job Portal

2026

Role: Full Stack Developer

- Developed a web-based recruitment platform for NCIP Region IX.
- Implemented online job posting, applicant submission, and document management features.
- Designed an admin dashboard for applicant tracking and recruitment monitoring.

OJTime Tracking

2026

Role: Full Stack Developer

- Developed a web-based Daily Time Record (DTR) system for internship attendance tracking.
- Implemented PIN-based login, automated time computation, and print-ready DTR generation.
- Built as a Progressive Web App (PWA) with Supabase integration and responsive design.

Order Confirmation & Shipping Tracker

2026

Role: Full Stack Developer

- Developed a web-based confirmation and shipping tracking system for customer orders.
- Implemented buyer information verification before order processing and delivery.
- Added order status tracking features such as Pending, Ready to Ship, and Delivered.
- Designed a responsive interface for monitoring order updates and shipping progress.

Bookshop Pre-order System

2025

Role: Full Stack Developer

- Built a bookstore pre-order web application using Google Sheets as an alternative backend solution.
- Designed responsive user interfaces for inventory display and order management.
- Explored cost-efficient and innovative development approaches without a traditional database.

Expense Tracker

2025

Role: Full Stack Developer

- Developed a web-based expense tracking platform for managing daily financial records and budgeting.
- Designed a user-friendly interface focused on accessibility and ease of use.
- Implemented features for expense monitoring, categorization, and financial organization.

D'Marsians: Web-Based Admission and Progress Tracking with Real-Time Visualization System

2025

Role: Quality Assurance, UI/UX Designer

- Designed system interfaces and prototypes using Figma.
- Conducted UI/UX reviews and functional testing.
- Assisted in structuring the system workflow and layout.

FoodTrack Sales Management System

2024

Role: UI/UX Designer

- Designed clean, functional UI screens
- Improved user flow for customer transactions

PawPointment Mobile Application

2024

Role: UI/UX Designer

- Crafted intuitive mobile app designs for pet appointment scheduling
- Focused on accessibility and user-centered design

EDUCATION

Saint Columban College (SCC)

2022 – 2026

Bachelor of Science in Information Technology

San Francisco Dist, Pagadian City
